SUPERVISORS VISIT THE COUNTY FARM

ANNUAL EVENT SURPASSED ALL OTHERS—MR. AND MRS. WICHER GOOD HOSTS.

ADJOURNED THIS MORNING

Board Transacted Considerable Business of Importance This Term.

We have discovered why men run for the position of county supervisor. They are willing to take all abuse, responsibility, criticism and hard work that goes with that office just to get out to the County Home once a year and eat one of the dinners Mrs. Clyde Wicher cooks.

All the supervisors, Dixon newspaper men and the auto owners who make possible the trip were banqueting in the most elaborate style by Mrs. Wicher yesterday noon. Sixty-four persons were fed. The menu tells the story better than any other words: Chicken, fish, cold ham, creamed potatoes and peas, fruit salad, tomatoes, cucumbers, pickles, olives, radishes, all varieties of fruit such as bananas, grapes, cherries, oranges, etc., coffee, strawberries, cherry pie, blueberry pie, cheese ice cream, various kinds of delicious cake—that's all we can remember; probably it was there we lost consciousness. Everything was exquisitely cooked and served. Sam Bacharach of Dixon engineered the chicken and fish during the process of preparation, and Sam is considerable of an engineer. "Duff" Burright was there, too, and was a great little helper. Miss McLaughlin, Mrs. Henry Shippert, Mrs. Roy Eastman and others assisted with the serving, and they were kept pretty busy for several hours, feeding sixty-four hungry men.

The supervisors were invited to the table first. All except Clint Buckaloo and John Drew. Those two had been down to the farm a few days before on business and they ate so much that day that it was deemed inadvisable to let them in at the first table this time. They surely made up for lost time at the second table, though, especially John. It took seven men to get him away from the table.

The supervisors and other visitors made a tour of the Home and the grounds, which are a revelation in modern, thrifty and up-to-date farming. Clyde Wicher, superintendent of the county farm, is an excellent manager and his administration there has been "business" from the start.

DISPLAY OLD GLORY; SATURDAY FLAG DAY

EVERY PATRIOTIC CITIZEN IS CALLED ON TO HANG OUT THE COLORS.

Next Saturday, June 14, is flag day. There has been no arrangement for its observance in Dixon but business men and citizens generally can observe the day by displaying flags. Every patriotic citizen should have a good bunting American flag and then on Decoration day, Fourth of July, Independence day, Labor day and all other holidays homes, stores and business places could be decorated by displaying the emblem of our country. It is worthy of our best efforts to give public recognition of these great days and it also forms a lesson for the rising generation. Hang out the Stars and Stripes on Flag day.

CONTRACTORS WILL NOT BID ON SEWER

EFFORT TO LET GALENA AVE. AND FELLOWS ST. SEWERS FAILS AGAIN.

SAY ESTIMATES ARE TOO LOW

Contractors Declare Work Can Not Be Done at Engineer's Figures.

For the second time the board of local improvements has failed to receive proposals for the construction of sewers in Galena avenue, from Tenth to Seventh streets, and in East Fellows street from North Jefferson avenue to Boardman Place.

In accordance with the published notices it was planned to receive the bids and let the contracts at 2 o'clock this afternoon and the board met at that time for the purpose. But no proposals were submitted and Contractors Rink & Schnell were the only bidders present.

Both of these gentlemen stated that the estimates for the work were too low and they or any other contractors could not do the work for the money which the city engineer estimated the jobs would cost.

Accordingly the board, after discussing the situation thoroughly, adjourned and the proceedings for the work will be started over.

Both of these sewers have been submitted for bids before, but at that time, also, the contractors stated the estimates were too low. Mr. Nesbit, the city engineer, has estimated the Galena avenue sewer to cost \$1,617.24, and the Fellows street improvement at \$1,487.06.

The Mobile Register, May 25, in writing of the State Normal school at Daphne, Ala., gives the educators of the institution mention and says of Miss Ethel Cortright, daughter of Mr. and Mrs. Frank Cortright, who has charge of the manual training: "In recent years the attention of educators has been brought to the great advantage of manual training work. For that reason the normal schools have instituted this department in their curriculum. The supervisor of the work in Daphne Normal school under the supervision of Miss Ethel Cortright, received the highest award of the state fair at Montgomery in 1913. A permanent exhibit has been placed in the capitol at Montgomery. The work of the department consists of baskets, raffia, bead, leather work, metal and drawing work."

Eighty invitations were issued to the affair, the out of town guests being: Mrs. William Tuller of Morrison; Mrs. David Hill and Mrs. Alfred Clatworthy of Harmon, and Mrs. Rosbrook of Dixon.

The affair was in the form of a lawn party, the spacious lawn surrounding the Woodburn home with its rows of peonies making a charming background for the beautifully gowned guests.

In the house, the decorations were all in peony blossoms, bouquets of pink and white peonies were in evidence everywhere with here and there a bunch of the brilliant red blossoms giving a charming touch of color.

The large porch was transformed into a living room with large easy chairs and divans and the porch swing making a delightful cosy corner for a quiet little chat.

The Woodburn home is situated almost at the end of West Third street and is surrounded with a beautifully well kept lawn. The graveled drive extending to the garage at the rear of the house is bordered with row after row of peonies while the lawn at the rear of the house is a veritable park with its clumps of shrubbery and a few flowers. At one side of the house stands an old fashioned "well house," this house being made out of natural trees, the trees coming from a forest north of town which has been in the Woodburn family for almost 100 years.

The little arbor is a very pretty spot being almost hidden from the road by the vines which clamber over it and the many flowering bushes. In the center of the house stands an old fashioned bucket well the water being drawn from the well to refresh the guests. A table for serving was placed in this arbor, frappe being served here.

The afternoon was pleasantly spent and will long be remembered by the fortunate guests present.

ILLINOIS NEWS

Sterling—Ants, the most energetic and industrious creatures known, are the cause of a great share of our pavement trouble, according to an assertion made by Alderman Moore. It was found that the busy little ants would carry out a double handful of sand from under a brick in a single night.

Freeport—The workmen who are tearing down the old Rawleigh building on Galena street near the C. & N. W. tracks, have adopted a novel way of tearing down the large walls of

The work was done with the consent of Agent Owens and it not only saves labor but also protects the men from being injured in tearing down the walls.

ILLINOIS WOMEN GIVEN THE BALLOT

Lower House at Springfield
Passes Measure Granting
Extension of Franchise.

WON BY A LONG STRUGGLE

Bill Permits Fair Sex to Vote on All
Offices Created by Statute as
Soon as Governor Dunne
Signs It.

Springfield, Ill., June 12.—Illinois has taken the lead among the states lying east of the Mississippi river in the universal suffrage movement. The house of representatives of the general assembly passed by a vote of 83 to 58 the bill giving women the limited right to ballot.

Now the bill will go to Governor Dunne for his signature, and when he signs it, as it is believed confidently he will, Illinois will take its place as the first state east of the Mississippi river to give considerable voting power to women.

Equal suffrage, as broad as it is possible to make it without a constitutional amendment, became almost a fact in this state when Speaker William McKinley announced the result of the final roll call on the bill.

Will Vote for President.

Under the operation of this act women in Illinois will be allowed to vote for all offices created by statute, including presidential electors and United States senators, and on all propositions submitted to the people.

It was not until there had been a hard fight that the bill was taken up and passed, and it marked the end of a long, arduous and intelligent campaign by women and their friends inside and outside the general assembly. The result was greeted with an outburst of applause from the crowded galleries and floor of representative hall.

Text of the Suffrage Measure.

Following is the text of the Illinois woman's suffrage bill:

Sec. 1. "That all women, citizens of the United States, above the age of twenty-one years, having resided in the state one year, in the county 90 days and in the election district 30 days next preceding any election therein, shall be allowed to vote at such election for presidential electors, member of the state board of equalization, clerk of the appellate court, county collector, county surveyor, members of the board of review, sanitary district trustees and for all officers of cities, villages and towns (except police magistrates), and upon all questions or propositions submitted to a vote of the electors of such municipalities or other political divisions of this state.

Township Officers Included.

"Sec. 2. All such women may also vote for the following township officers: Supervisors, town clerk, assessor, collector and highway commissioner, and may also participate and vote in all annual and special town meetings in the township in which such election district shall be.

"Sec. 3. Separate ballot boxes and ballots shall be provided for women, which ballots shall contain the names of the candidates for such offices which are to be voted for, and the special questions submitted as aforesaid, and the ballots cast by women shall be canvassed with the other ballots cast for such officers and on such questions. At any such election where registration is required women shall register in the same manner as male voters."

For Universal Suffrage.

Washington, June 12.—By practically a unanimous vote the senate committee on woman's suffrage has ordered a favorable report on the proposed constitutional amendment granting the franchise to all citizens irrespective of sex. Elaborate hearings were held on both sides of the question by the committee. Senator Ashurst has been detailed to prepare the report and the committee will urge that congress submit the proposed amendment to the states for their ratification.

COMMERCE COURT'S FATE UP

Conference to Decide Whether Bench Will Be Abolished July 1.

Washington, June 12.—Fate of the commerce court is being discussed at a conference today of Representative Fitzgerald, chairman of the house appropriations committee; Representative Layton, chairman of the judiciary committee; Representative Brouard, Chairman Clark of the interstate commission, and Assistant Attorney General Denison. Unless congress appropriates for its maintenance by July 1 the court will be without funds. The judges would continue to act as circuit judges, but as members of the commerce court would not have means to try cases.

Trouville, France, June 12.—Disobeying his governess, the little nephew of Count de Nevalles entered a kennel containing twelve savage dogs which were being trained for police service. The animals sprang upon the boy and literally tore him to pieces.

ASKS NEW RAIL RATE LAW

Would Take Control of Roads Away From States.

Washington, June 12.—Extension of the jurisdiction of the interstate commerce commission over intrastate rates or interstate railroads, in accordance with a suggestion in the Minnesota rate case decision, will be proposed in a bill being prepared by Representative Willis of Ohio, Republican member of the house interstate and foreign commerce commission.

The basic principle of this measure will be the right of congress to control the instrumentalities of interstate commerce, even to the extent of regulating the rates in each state.

The bill may be patterned after the federal safety appliance act, upheld by the Supreme court, although the interstate cars involved in the test were carrying commerce originating and ending within Alabama.

BOLT CAUSES BOY TO WALK

Lightning Passes Through Body and Gives Him Use of Legs.

Jamaica, L. I., June 12.—Electrical current from a bolt of lightning passing through the body of Tommy Brown, the four-year-old son of Mr. and Mrs. Thomas William Brown, caused the boy to walk for the first time in his life.

Tommy has always appeared perfectly normal physically but had never been able to control his legs sufficiently to walk.

The bolt which restored him to health hit the Brown house two days ago.

MORE ABOUT LIGHTS.

It may be of interest to the citizens of Dixon to know a few facts regarding the comparison between the present street lighting system and that of two years ago.

The lights recently installed in the residence district are of greater candle power than the ones used in 1910. They also number about three times as many.

If the ornamental street lighting is installed as requested by the merchants of Dixon, the additional cost will not then exceed what the city paid for lighting during the year of 1910. In short, the city is getting three times as much light and three times as many lights and the ornamental lighting in addition, for the same amount of money. Of course, this cannot all be accredited to the Lighting company nor the city officials, as the trend of the time has brought on new forms of lighting and Dixon has today, the latest and most improved equipment known for residence street lighting and it is an undisputed fact that this bracket ornamental lighting recently installed on approval is the latest type of lighting of this kind.

The merchants having raised the required amount for six blocks, it is now for the city officials, mayor and commissioners to say whether or not the city will have these ornamental arc lights; that is, whether the city can afford to spend the money for them or save it for some other purpose. There is no doubt there will be a saving if they do not install the lights. Just what they intend to do with the saving is for the mayor and commissioners to say.

A. L. GEISENHEIMER & CO

QUEERED HIS CRUISE

Volcanic Explosion Spoiled Trip for Captain of Whaler.

Fishy Prey, of Which There Were Hundreds, Disappeared Immediately After the Occurrence and Vessel Had to Follow.

The whaling bark Gayhead, Captain Wing, which left here several months ago on a blubber expedition in the frozen north, returned with 550 barrels of sperm oil, the product of eight whales, and an account of the volcanic eruption at Katmai last June, says a San Francisco dispatch to the New York Herald. The Gayhead was 200 miles from the volcano and 150 miles off shore at the time of the eruption. Whales were plentiful, sea birds were visible in all directions, and fish, large and small, could be seen in the clear green water.

A whale had been cut out of the school that was spouting not far from the bark, had been killed and made fast alongside the vessel. Fires had been started under the blubber kettles, and the work of cutting up the whale was in full blast when a muffled explosion that seemed to shake the universe was heard. It was followed by six more explosions.

A few minutes later there appeared on the horizon a small cloud, that assumed leviathan proportions as it rushed toward the Gayhead. There was wind with it, and it struck the vessel with the violence of a hurricane squall. As it hit the bark the air was filled with fine white dust that soon covered the decks. The blackness was on both sides of the vessel. "Black as the darkest night," is the way Captain Wing describes it. Between two strata of black was a column of fiery yellow, bright as gold. Captain Wing, who has passed many years in the Arctic, and who recognized the explosions as of volcanic origin, says that the combination of black and yellow was

the strangest sight he had ever seen.

The Portuguese whaler men quit work, dropped to their knees, and invoked the aid of every saint on the calendar. They were satisfied that the day of judgment had arrived. The shower of ashes and the accompanying darkness lasted for 48 hours.

"As the squall approached," said Captain Wing, "I noticed the whales skeddaddle. They hooked on at full speed. When the air cleared, two days later, there was not a whale in sight, nor a fish, nor a fowl, nor a sign of any kind of life. It was not until the Gayhead had cruised many miles and had winged its way far out of the track of the volcanic dust that as much as a bird was seen. That cursed squall queer'd our cruise all right."

It was more than a month later that the people of the Gayhead learned what had happened.

And Afterward?

"Boasting," said Menz I. Rosenbaum, attorney, at a recent dinner given a number of Chicago lawyers, "is always in bad taste and so deserves the sarcasm it usually receives."

"I had a client some years ago who scarcely dared speak in the presence of his wife concerning his own or his friends' exploits; no matter how strenuous these might be she always could go him one better—and always these wonderful feats were performed by her uncles or her cousins or her brothers."

"One day at a little dinner party they were attending my client started to tell a story about the adventures of a friend during the burning of an hotel."

"Why, John," interrupted his wife, "don't you remember the heroism of my father? My father," she said, by way of explanation to the other guests, "was chief of the fire department for twenty years before his death."

"Before his death," queried John softly, and the other guests who had known the hard life of the old fireman laughed aloud.

DUKE SAILS FOR WORLD TRIP

Louis Philippe Leaves Genoa as Princess Starts Separation Suit.

Brussels, Belgium, June 12.—The pending suit for separation, alimony and the restitution of large sums of money brought by the duchess of Orleans against her husband, Prince Louis Philippe, duke of Orleans, lends interest to a dispatch received here from Genoa stating that the duke, under the name of Count Philippe de Villiers had left for Buenos Ayres with the intention of making a voyage round the world.

Modified Request.

"Could I see your husband, ma'am?" asked the tramp at the door.

"What do you want to see him for?" demanded Mrs. Henpeck. "I am the head of this house."

"Oh, excuse me, I didn't know," replied the tramp, courteously. "In that case, could you spare me a pair of your trousers, ma'am?"—Harper's Weekly.

AIN'T IT THE TRUTH?

When a dog dislikes a man he will show his teeth and growl.

When a boy dislikes a man he will put his fingers to the end of his nose and wiggle them.

But when a man dislikes another man he will shake hands with him, buy him a drink and wait until he goes out before he begins knocking.

SOMETHING FOR NOTHING

The world is filled with men who sit and read of schemes that seem to fit right into their philosophy of getting rich while labor free. They read of 500 per cent and take the coin that's meant for rent and turn it over to a shark who has the real Honduras mark. They holler if the grocery man is shy three drops in the oil can, and drag the butcher with a rake if he won't trust them for a steak. And every man is a suspect except the guy who'll soon have trekked. The boob who have themselves to blame still play the other fellow's game. They wonder why they get a lime when they want ten bucks for a dime.

THE "CRESCENT" BUGGY

IS BUILT FOR WARE, AND TO WEAR

I had this buggy built under my own exacting specifications and for my OWN trade, by a factory producing nearly ONE-TENTH of all the vehicles made IN THE U. S. They build their own bodies, seats, wheels, and tops; and grind their own paint. They buy FOR CASH and sell FOR CASH and their motto is MAXIMUM quality and MINIMUM price.

The DIXIE-DIXON Buggy

Is up-to-the-minute in style, perfect in symmetry and proportion. Fully warranted and in every way dependable.

Triple panel, two-in-one auto seat, skeleton auto top, lined and with cross straps, 12-inch steel fifth wheel with rib and groove which excludes dust and grit and prevents getting out of track.

Patent plugless, round rear-corner body, French-head, oil tempered, easy riding spring, self-lubricating, light draft axle, wrot gear construction, "Elite" electric lamps, best grade rubber tires.

AND HERE COMES THE SURPRISE

Through buying a quantity of these buggies and paying SPOT CASH, securing minimum freight rates, having them made up early, etc., I am going to sell this buggy complete as described above for

EIGHTY-FIVE GOOD AMERICAN DOLLARS

It carries my own name-plate and liberal warranty. It will please particular people, is roomy, comfortable and comforting to those who appreciate GETTING THEIR MONEY'S WORTH. Make critical comparisons between it and buggies priced \$15.00 to \$25.00 higher and then exercise your own judgement. IF YOU CAN equal it at home or away the "SURPRISE" will be on me. It has taken me a long time to find this opportunity and the only way I can realize upon it is through selling A LOT of them.

COME AND BE SURPRISED

Notices of clubs and societies are gladly received for publication by this paper, and we take pleasure in printing them for the benefit of the general public. But the person telephoning or sending a message to this office will confer a great favor if the item is sent to us in the morning. It will receive a better position in the paper and be more apt to appear in print than if sent in the afternoon which is the very busiest time on a daily newspaper, when the news from the larger cities reach us and when the news of great importance of our own city comes in.

Miss Ella Richards of Sterling visited here this morning.

West Virginia Miners Convicted
and Sentenced Without
Trial in Courts.

CIVIL LAWS WERE IGNORED

Military Officers Declare They Believed Constitution Was Suspended and Were Justified in Using Extreme Measures.

Charleston, W. Va., June 12.—Martial law in the coal strike regions of West Virginia were described before the senate mine investigating committee. After three military officers had described conditions the committee expressed itself satisfied as to the charge that "the citizens of West Virginia had been tried and convicted in violation of the Constitution and laws of the United States."

Testimony was heard from two members of the military committee, which at three different times has assumed dominion over 150 square miles of West Virginia territory. They were Capt. Charles R. Morgan, a lawyer, and Maj. James I. Pratt, who was president of the second military court which took charge of the strike district.

Both told the committee that their proceedings were conducted without regard to the civil laws of the state; that they arrested, arraigned, tried and convicted offenders in the strike zone without recourse to process of the civil courts, and that they imposed sentences without regard to the limitations imposed by the state civil statutes.

Considered That Warfare Existed. "We considered that the entire strike district was in a state of actual warfare," Captain Morgan said, "and we acted according to the procedure of the United States army in time of war."

"But the constitution of the state provides," Attorney Monnett, for the miners, interjected, "that the military shall be subordinate to the civil power and that no citizen, unless engaged in military service of the state, shall be tried or punished in any military court for any offense that is cognizable by the civil courts of the state."

"My understanding was," Captain Morgan replied, "that during the state of insurrection which prevailed the constitution of the state of West Virginia had been suspended by the acts of these men who were burning, killing and destroying property."

Believed Constitution Suspended. "You believed the constitution had been suspended?" demanded Senator Borah.

"Yes, sir," replied the militia officer, "that is, we believed these men had suspended the constitution and that, in order to perpetrate the state of West Virginia and restore the constitution, we were justified in using extreme measures."

Captain Morgan said the military commission believed its authority was unlimited under the general order issued by Governor Glasscock, which said the military commission "is substituted for the criminal courts of the district covered by the martial law proclamation, and all offenses against the civil laws, as they existed prior to the proclamation of November 15, 1912, shall be regarded as offenses under the military law, and in punishment thereof the military commission can impose such sentences, either lighter or heavier than those imposed under the civil law, as in their judgment the offender may merit."

Exceed Civil Law Punishments. Both Captain Morgan and Major Pratt asserted the commission did not feel itself limited by the statutory provision regarding punishment for offenses, and Major Pratt gave several instances of sentences imposed by the commission exceeding the statutory punishment.

A dozen pictures of men clad in prison clothing were identified by Major Pratt as men who had been sentenced by the military commission and sent to jail. One was given a sentence of seven and a half years for perjury, several others were given three, four and five-year terms for "interfering with the officers."

"Was there any indictment or other civil process presented against these men?" asked Senator Borah.

"No," Major Pratt answered, "they were arraigned on charges and specifications prepared by the judge advocate general."

IN SUCH PAIN WOMAN TORE HER CLOTHES

Testifies She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Malone, N. Y.—"Lydia E. Pinkham's Vegetable Compound has certainly done me a lot of good. I first heard of it when I was a girl and I always said that if I ever had female trouble I would take it."

"I suffered from organic inflammation and would have spells when I would be in such pain that I would tear my clothes. One day my husband got the neighbors in to see what the matter was but they could not help me. My first thought was for Lydia E. Pinkham's Vegetable Compound and I sent my husband out for it and took it until I was entirely cured. I am a woman of perfect health and my health and happiness came from Lydia E. Pinkham's medicine. You may rest assured that I do all I can to recommend your wonderful medicine to my friends."—Mrs. FRED STONE, Route No. 3, Malone, N. Y.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged. This—the quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription. We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that D.D.D. stops the itch at once. We just want you to give D.D.D. a trial. That will be enough to prove it. Of course all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute. But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.

Dr. Gable Talks About Chronic Diseases:

I want to say a few words to people suffering with rheumatism, uric acid troubles, kidney and bladder troubles, heart troubles, and stomach and liver troubles. These diseases are all caused from practically the same thing, and you might call them first cousins. In the beginning, there is some derangement of digestion or of the secretions. This allows the partly digested food to pass into the blood in such a state that the blood cannot assimilate all of it. As a result of this, there is a great deal of waste matter that must be carried off through the kidneys and skin, and the kidneys become gradually clogged up, causing reabsorption of this waste matter into the blood. It then settles in the muscles, nerves, in the small capillary blood vessels, or in the joints, and causes disease. I want to state positively that every case of the above diseases is curable with my Neuropathic system of treatment, if the patient comes to me before too much of the tissues of the diseased organs are destroyed. My system of treatment cleanses and purifies the blood. It restores normal circulation and strengthens the nerves, and dissolves disease deposit. I would like every sufferer of these troubles to come to me on this trip to Dixon. I will take the time to make a thorough examination of the heart, the circulation, the blood, and the kidneys, and when I have finished, I will tell them exactly what their condition is; whether they can be cured or not. Catarrh of the nose, throat, or constitution, deafness, head noises, and ulcers of the ears come from the same cause as rheumatism. I have treated hundreds of cases of catarrh and deafness with my new system of treatment, curing them completely, and restoring perfect hearing. All cases of weak eyes, chronic inflammation of the eyes, internal eye diseases and partial blindness are successfully treated by my method. Every form of weakness and disease of the nervous system, especially that kind that affects the heart, causing palpitation, shortness of breath, irregular pulse, smothering spells, dizzy spells, sick headaches, pain around the heart—all these troubles are given a most immediate relief by my treatment. Men and women suffering with weakness of some of their vital organs, no matter where, can obtain complete relief by my system of treatment. All chronic discharges, all wastings are curable. I have treated a great many people in my previous visits to Dixon, and have had wonderful success with many old chronic cases. On this trip I am going to make examinations and give consultations free to every sufferer that comes to me. I am not going to leave you any excuse for not learning of this treatment. I believe it is the only scientific treatment. You have everything to gain and absolutely nothing to lose by getting my professional opinion of your case, by learning exactly the condition you are in, and by knowing the condition of your heart, nerves, blood and kidneys. I use no strong poisonous remedies, but such remedies as dissolve and clean out the disease deposits in the blood and tissues, that equalize circulation, that restore strength and vitality to weak nerves. When this is done, you are bound to get well. No matter where you live, rich or poor I want you to come to see me this trip. You can do a kindness to some suffering neighbor or friend by telling them of my visit and my new system of treatment. Tell them to come and see me. You will also help me to do a kindness. I want to cure as many patients around Dixon as possible to prove that my system of treatment is superior to others. Remember the day I will be at the Nachusa House from 9 a. m. until 5 p. m. Saturday June 14. I will receive patients from 9 in the morning until 5 in the afternoon.

SOMETHING NEW
Hulled Whole Wheat Cooked Ready TO EAT

There are about four recipes on the can telling how to use it. One to warm it up and use with cream and sugar like oat meal. Another to make whole wheat Porridge, to make a pudding with it, also how to use with ice cream and fruit juices. Still another how to make whole wheat fritters.

It is put up in a No. 2 can same size as corn and peas and sells for 12c per can. It is entirely new but seems as though it was a real good thing
